SUMMARY Senior full-stack engineer with experience shipping high-traffic streaming and e-commerce platforms. Background directing design and production for 20+ editorial projects, from typography and layout to printing and distribution, applied to design systems and UI architecture. Currently based in Madrid, Spain.

EXPERIENCE **TELEFÓNICA/FON** | Madrid (ES) 2023 – Present

Full stack developer. *movistarplus.es*: Streaming near-real-time web application.

Stack: React, TypeScript, Node.js, GraphQL, HLS/DASH.

- Contributed to libraries, including Google's Shaka-player (PR 9943, PR 6022).
- Development of multilingual web and backend BFF applications for European and American markets with several million concurrent playbacks.
- Introduced TypeScript to a 1,000-file Node.js codebase, raising typed coverage to roughly 40%, along with testing best practices.
- Maintain CI/CD pipelines with the team: GITHUB Actions, Docker, canary deployments to OpenShift.
- Refactored several functionalities and their caching systems to improve latency, helping other teams working with different devices replicate our success in their implementations.
- Led cross-team efforts to find and solve hard-to-reproduce bugs, often requiring investigation beyond the team's own systems.
- Currently migrating the Movistar Plus+ international web service (10+ countries) into a new platform, working transversally across engineering, design, and product teams on a complete redesign and merging both platforms' business logic.

THRIVE MARKET/DISTILLERY | Moscow (RU) – L.A. (US) 2019 – 2022

Full stack developer. *www.thrivemarket.com*: e-commerce competing with Amazon Fresh in the US market.

Stack: TypeScript, React, Cypress, Rust.

- Synchronization with cross-functional teams across different time zones (US – CEE/CIS).
- Refactored web client to Next.js over an 18-month migration, writing a full suite of E2E tests with Cypress beforehand; all 32 views migrated or retired with no SEO regression.
- Implemented new modules related to different payment systems.
- A/B testing and experimentation with Amplitude.
- Managed cleanup, shutdown, and replacement of legacy sites and endpoints, including infrastructure and redirections.

ASTROSHOCK | Moscow (RU) 2017 – 2019

Full stack developer. *Stack*: React, Backbone, Django (Python). Development of web client, back office for content management, and API.
www.mosbrew.ru, ww.u.university, www.linii.group.

CRITIK | Madrid (ES) 2015 – 2016

Founder and developer. Project management and data import from the BNE using SPARQL and MySQL.

DÍAZ & PONS | Madrid (ES) 2012 – 2015

Founder and editor. Directed overlapping design and production workflows across 20+ projects, coordinating authors, printers, and distributors. *www.diazpons.es.*

FREELANCE | Madrid (ES) 2007 – 2011

Project manager at CGAC and Medialab-Prado (currently Matadero-Medialab).

EDUCATION **CGAC + USC** | Santiago de Compostela, Spain 2007

Master's Degree in Project Management

USC | Santiago de Compostela, Spain 2001 – 2006

Bachelor of Arts in Art History

SKILLS **Languages**: TypeScript, JavaScript, Rust, Go, SQL.
Frontend: React, Next.js, GraphQL, Framer Motion.
Backend: Node.js, postgresQL.
Architecture: DDD, Hexagonal, REST.
Design: Component-Driven Design, Atomic Design, Design Tokens, Material Design, Grid Systems.
Testing: Jest, Cypress, Amplitude (A/B).
Tools: Git, GitLab, GITHUB Actions, Jenkins, Docker, OpenShift.

LANGUAGES **Spanish**: Native.
English: Fluent, spoken and written.
Russian: Intermediate, spoken and written.

PROJECTS **Urligram**
Web client, API, and browser extensions for urligram.com.
Stack: Go, Rust and TypeScript.

Transducers
Functional programming series at antoniodiaz.me.

Hexagonal Rust
Rust API REST starter kit using hexagonal architecture.

INTERESTS Gliding: SPL (Sailplane Pilot Licence), based at Fuentemilanos, Spain.
Reading: narrative nonfiction on history of technology, geography, and art.
